About Me

As a dedicated and enthusiastic Computer Science undergraduate student , I have strong foundation in programming languages such as C/C++ , Java. With a keen interest in problem solving and latest technologies , I try to continuously expand my skills and knowledge in the field.

Projects

- **CODE COSM(Group Project) :**
My third year mini project is a blogging web application which is designed with the motive of simplifying the work for developers as it has different features like creating and posting blogs , discussion forum , sharing of code snippets , sharing of projects , etc.
Tech Stacks : React.js, CSS, Node.js, Express.js, MongoDB

- **Password Generator :**
Password generator is a mini project which randomly generates password based on user-defined criteria , including length and character types(uppercase letters , lowercase letters , numbers and special symbols)
Tech Stacks : HTML , CSS , JS

- **PORTFOLIO WEBSITE :**
A Portfolio website is a project that showcases my skills , works , achievements , and experience to potential employers , connections and collaborators. It serves as a personalized online portfolio that highlights the best examples of my work and provides context around my capabilities.
Tech Stacks : HTML , CSS , JS

Achievements and Certifications

- Certificate of completion from **Google cloud** for completing various courses like Google cloud computing foundations and Gen AI.
